Orders drawn by school board	\$5,253 97
Unpaid teachers orders not drawn	753 00
Estimate of unpaid bills	175 00

The directors respectfully recommend that a tax of 65 per cent of the grand list be raised for the ensuing year for school purposes.

## SUPERINTENDENT'S REPORT

TO THE CITIZENS OF NORWICH :

In accordance with a law passed by the recent Legislature, the present school year was continued until July 1, as was also the office of each school official whose term would end in March or April, 1911. Therefor, a general report of the school work will appear at the close of the year's work, in a printed report which the school board is required to make on or before July 15.

However, it seems advisable, at this time, to call the attention of the voters, especially those living in the north-eastern part of the town, to the conditions and surroundings of the schoolhouse at Pompanoosuc. With not a foot of land to make certain changes required by law, the question arises, "Shall we obtain more land in this undesirable location or move to a more favorable location?" Not only those whose interests are directly involved but all citizens of the town should give this matter their immediate consideration and, if necessary, come before the next town meeting, prepared to ask the voters for assistance requisite to make such desirable changes as will secure the best results.

In considering the matter of school location, the needs of a place for a school building having greater accommodations and better adapted to the progress of education should demand your attention. The standard of qualification to be obtained in our elementary school work, at the present time, should stimulate us to furnish in every locality, so far as possible, such accommodations as will best serve the interests of education in that locality.

Not until a school with at least two departments is established in this northeastern and manufacturing section of the town, will the advantages of the pupils living herein be sufficient to enable them to accomplish the amount of work which they are capable of doing and which others are doing, in the same length of time.

May such changes soon be made as will promote the best interests of all connected with the school, and whereby the possibilities of the pupils will be placed upon a basis equally as good as those in any other section.

Respectfully submitted,

BETHANIA C. MATHEWS,

Superintendent of Schools

- IV. To vote "Yes" or "No" upon the question: Shall license be granted for the sale of intoxicating liquors in town?
- V. To see if the town will vote to raise a sum of money in addition to the amount required by law to take advantage of the State Aid Law; if so, how much.

FARMING TOOLS AT TOWN FARM, FEBRUARY 1, 1914

One cutaway harrow, 1 76 plow, 1 smoothing harrow, 1 spring tooth harrow, 1 old and 1 new hoe, 1 potato digger, 1 dung hook, 1 new sledge hammer, 1 hammer, 1 cant hook, 3 pitch forks, 1 buck saw, 1 cross cut saw, 1 new shovel, 1 spade, 1 new axe, 1 hay cutter, 1 corn cutter, 1 manure fork, 1 log chain, 1 trace chain, 1 pair work harnesses, 1 two-horse wagon, 1 two-horse traverse sled, 1 Concord wagon, 1 cultivator, 1 new horse rake, 1 mowing machine, 1 grindstone, 1 water heater, 1 separator, 1 new lantern, 4 forty-quart milk cans, 1 express harness.

The Overseer has done well, we think, during the past year. He has built a new cow stable and horse stable, all on one floor; it is a good one. He has also changed the whole herd of cows, selling the old ones, replacing them with good young cows and an increase of three. The herd looks to be good enough to be profitable for the town during 1914. The fences have been improved a good deal. Everything looks well inside as well as outside. One pauper and seven tramps fed and lodged.

*Statement of the condition of the school property, under the charge of School Directors:* We think on the whole is very good. This last year we have repaired and painted the school house at West Norwich, Bragg school

house, Turnpike school house, and Sproat school house, so that with the exception of a new floor in the Bragg school house, all are in a very good condition. Under the new Supervision Law we think we are very fortunate in having Mr. Charles P. McKnight for our Superintendent, who is furnished by the State and has four town, Norwich, Sharon, Strafford, Thetford, and West Fairlee, and devotes his whole time to school work. We have been very successful in getting good teachers, with the exception of one term at the Turnpike. With the State Aid to teachers who have Teacher Training or Normal, it gives us better teachers in the rural school.

Not being entitled to State Money last year, we are not able to cover our expenses. We are in hopes with the State Money we are entitled to this year to reduce our school debt.

The School Directors would respectfully recommend the town to raise 70 per cent school tax to defray school expenses.

Very respectfully,

P. A. ROOT
